Approved Medical Specialists – Specialist medical practitioners

About WorkCover WA

WorkCover WA is the government agency responsible for overseeing the workers' compensation and injury management system in Western Australia.

Part of the agency's role is to monitor compliance with the *Workers' Compensation and Injury Management Act 1981*, (the Act) inform and educate workers, employers and others about workers compensation and injury management, and provide an independent dispute resolution system.

Role of an Approved Medical Specialist

Only medical practitioners who are trained in the use of the 'WorkCover WA Guidelines for the Evaluation of Permanent Impairment' (WA Guidelines) and meet WorkCover WA's eligibility criteria can be designated as an Approved Medical Specialist (AMS).

An AMS plays an important role in the WA workers' compensation scheme. AMS assess an injured worker's degree of permanent impairment which determines access to certain workers' compensation entitlements by injured workers.

Eligibility criteria for designation as an Approved Medical Specialist

To be designated as an AMS, under section 146F(1) of the *Workers' Compensation and Injury Management Act 1981*, a person must satisfy all of the criteria below:

1. Be registered as a medical practitioner with no current notations, conditions or reprimands for disciplinary purposes recorded against their registration for medical practice; and
2. Provide evidence of current clinical practice and/or expertise in assessment; and
3. Have undertaken training in the WorkCover WA Education Module, which includes training in the WorkCover WA Guidelines; and
4.
 - (i) Undertaken training in the use of the American Medical Association Guidelines to the Evaluation of Permanent Impairment upon which the current edition of the WorkCover WA Guidelines are based; **or**
 - (ii) Have current accreditation as a "Certified Independent Medical Examiner" with the American Board of Independent Medical Examiners (ABIME); **or**
 - (iii) Undertaken other training in impairment assessment approved by WorkCover WA; and
5.
 - (i) Have qualifications as a specialist; **or**
 - (ii) Be able to demonstrate competency levels acceptable to WorkCover WA.

How to become an Approved Medical Specialist – application process

1. Before undertaking training in the WorkCover WA Guidelines, applicants **must** have:
 - completed training in the American Medical Association Guides to the Evaluation of Permanent Impairment (**AMA 5**); or
 - current accreditation as a “Certified Independent Medical Examiner” with the American Board of Independent Medical Examiners (**ABIME**)

WorkCover WA **does not** provide training in AMA 5 or assistance with ABIME accreditation. WorkCover WA recommends medical practitioners contact an accredited training provider or their local professional body to access this training.

Important note:

WorkCover WA recognises satisfactory completion of equivalent AMA 5 training conducted by the workers’ compensation jurisdictions in New South Wales, Queensland and South Australia.

It is the applicant’s responsibility to ensure AMA 5 training meets specific requirements. *Please contact WorkCover WA prior to undertaking Eastern States based training to confirm it meets the required standard.*

2. After completing training in AMA 5 or obtaining ABIME accreditation, medical practitioners are required to complete training in the WA Guidelines. This training is held at WorkCover WA when there is sufficient demand, usually from 5:30pm to 9pm on a weekday evening. Training sessions are advertised on the WorkCover WA website under the ‘Events’ tab and are listed in date order.
3. At the conclusion of the WA Guidelines training, participants will receive a Certificate of Completion.
4. After completing the pre-requisite training requirements mentioned above, medical practitioners must submit the applicable completed ‘Application for designation as an Approved Medical Specialist’ (AMS application form) together with the required supporting evidence to WorkCover WA. *(Please note: WorkCover WA cannot progress your application if all supporting documentation is not received with the AMS application form).*

The completed AMS application form and any required supporting evidence should be forwarded to:

**Senior Claims Officer
WorkCover WA
2 Bedbrook Place
SHENTON PARK WA 6008**

**Or via email
to medical@workcover.wa.gov.au
Attention: Senior Claims Officer**

Important note:

WorkCover WA will only consider applicants that have completed the pre-requisite training requirements and meet the eligibility criteria. WorkCover WA may request further information when considering your application.

5. Once complete applications are forwarded to WorkCover WA for consideration, WorkCover WA reviews the applications to ensure the eligibility criteria for designation as an AMS has been met.
6. A recommendation for designation or otherwise is made to the WorkCover WA Board.
7. The names of the applicants recommended for designation as an AMS will be published in the Western Australian Government Gazette.
8. Once published in the Gazette, applicants then become an AMS and are then authorised to conduct permanent impairment assessments of injured workers.
9. All applicants will be advised in writing of the outcome of their AMS application.
10. A register of current AMS is published on the WorkCover WA website for public viewing.
