

CONSOLIDATED WC11 STATEMENT OF WAGES AND CLAIMS

Enclosed in this document is:

- **2014/15 Consolidated WC11** – Statement of Wages and Claims for premium rating returning entities.
- **Legend for the WC11 Columns:**

Column (A) Class No./Name: This includes information on the ANZSIC codes, Divisions, Subdivisions, Groups and Classes of industries.

Column (B) Reporting Year: There are eleven (11) periods of Reporting Years for each ANZSIC code.

Column (E) Current Updated Wages

- Total current updated wages are reported.
- The current updated wages for policy renewals in each underwriting year is listed in the row applicable to that year. Current updated wages means the employer's initial wage estimates updated by all transactions including wage adjustments, mid-year adjustments, late or early policy renewals, policy reversals and reinstatements.
- Underwriting Year means *policy renewal start dates from 30 June in a year to 29 June in the following year.*

Column (G) Earned Wages

- Earned premium is the portion of gross written premium which is 'earned' by the insurer in the Earned Year. This is based on the portion of policy period, measured in days, that applies to an earned year and for which the insurer has been exposed to loss.
- Earned Year is the financial year (1 July in a year to 30 June the following year) in which wages and premium were earned, irrespective of when the policy was written, processed or paid.

Column (H) Cumulative Number of Claims Reported

- The total number of claims ever reported to 30 June 2015, subdivided by the year of accident event (that is, for 2014/15, 2013/14, 2012/13, 2011/12, 2010/11, 2009/10, 2008/09, 2007/08, 2006/07, 2005/06, and 2004/05 irrespective of when, prior to this date, the claim was reported, paid, settled or finalised.
- All reported claims, including those for which no payments or estimates have been made are included.

Column (I) Cumulative Claim Payments

- Current total updated claim payments (that is, cumulative). This refers to the amounts actually paid during the year in respect of claims gross of reinsurance recoveries but net of other recoveries added to amounts actually paid in previous years (gross of reinsurance recoveries but net of other recoveries) for the relevant accident year.
- Claims payments are classified by year of accident, regardless of when the claims were reported.
- Claims payments are inclusive of any GST payable and net of any Input Tax Credit (ITC) and/or decreasing Adjustment Mechanism (DAM) receivable (that is, the net claims payment).
- Claims include all legal, assessors, witnesses and surveillance fees directly attributable to workers' compensation cases. Administrative expenses are not included.

Column (J) Case Estimates Outstanding at End of Period

- Case estimates outstanding on current claims for each industry code as at 30 June 2015 by accident period.
- Case estimate means the estimate straight from the insurer's claim file without adjustment for development. Case estimate is not reduced for any reinsurance recovery.
- Case estimate outstanding means the case estimate less any amounts that have already been paid.

Guidelines current as 1 June 2015.

ADDITIONAL NOTES:

ANZSIC 81130: Local Government Administration

When determining recommended premium rates from the 2002/03 data year, the premium rating data declared by local government entities within the Western Australia Local Government Association (WALGA) has been excluded from ANZSIC class 81130. This is because workers' compensation for local government entities is underwritten by an approved self-insurer, the Local Government Insurance Service - WorkCare Scheme (LGIS).

As from the 2003/04 Consolidated WC11, the data declared by LGIS entities was removed from reporting years 1995/96 onwards. The recommended premium rate for 2004/05 onwards for ANZSIC 81130 is based predominantly on historical data collected from private insurers and does not reflect the current experience of the LGIS. The Consolidated WC11 data for ANZSIC 81130 only reflects a very small percentage of local government activity outside the LGIS as well as data for years prior to the inception of the LGIS (1995/96).

ANZSIC 97001: Private Households Employing Staff – Occasional Staff

The premium rate for ANZSIC class 97001 Private Households Employing Staff – Occasional Staff is the \$80 minimum premium per policy for household policies. The ANZSIC class 97001 data excludes a large number of policies that were reallocated from code 97000 to code 97001 during 2008/09.

WORKERS' COMPENSATION AND INJURY MANAGEMENT ACT 1981
